Contract No. **09510**

Dear Mr. Gallagher:

Subject: Use of Bonneville Power Administration easement area for the encroachment of your house and the construction and maintenance of a fence and landscaping within the Administration's Tract C-RE-438 of the Olympia-Covington transmission line between Structures 237 and 238 (operated as Olympia-White River No. 1 line, Structures 42/3 and 42/4) in the NW1/4SW1/4 of Section 10, Township 19 North, Range 4 East, Willamette Meridian, Pierce County, Washington.

The above described use of this easement tract has been determined not to be a hazard to nor an interference with the Bonneville Power Administration's present use of this easement for electric transmission line purposes. Accordingly, there is no objection to such use, subject to the condition, however, that if such use should at any time become a hazard to the presently installed electrical facilities of the Administration, or any facilities added or constructed in the future, or should such use interfere with the inspection, maintenance or repair of the same, or with the access along such easement, you will be required to remove such hazard or interference.

You, of course, will have to assume all risk of loss, damage or injury which may result from your use of the easement area, except for such loss, damage or injury as the United States may be responsible for under the provisions of the Federal Tort Claims Act, 62 Stat. 992, as amended. It is understood that any damage to the Government's property caused by or resulting from your use of the easement tract may be repaired by the Administration and the actual cost of such repair shall be charged against and be paid by you.

The following conditions also must be complied with:

- 1. You shall make no additions to the portion of your house which is within the transmission line right of way; neither shall you place any additional buildings or structures within the transmission line right of way.**
- 2. Your fence shall be limited to a maximum height of 6 feet.**
- 3. All trees and shrubs planted within the right of way shall be kept to a maximum height of 12 feet.**

4. Your use of the transmission line right of way shall not interfere with the Government's access to and along the right of way in the Government's maintenance or rebuilding of its facilities.

5. This permit shall remain in effect so long as you comply with the terms and conditions set out herein, or have need for the facilities hereinabove described; provided, however, that if you do not comply with the terms and conditions of this permit, or the Government determines that your facilities interfere with the use and operation of its facilities, or the construction of an additional transmission line, then the Government shall notify you and you shall have 60 days time thereafter to remove the interference and, if you shall fail or refuse to do so within said 60 days, then the Government may terminate this permit.

It is understood that any rights granted you hereunder are subject to existing rights, if any, of other parties.

It is further understood that you covenant and agree that you will comply with the terms and provisions of Title VI of the Civil Rights Act of 1964, 78 Stat. 241, to the extent that the provisions of said Act apply to you. In the event of violation, the United States of America reserves the right to invoke the provisions of Section 17.4 of Title 43 C.F.R.

This agreement will become effective upon your returning this letter with your approving signature to the Bonneville Power Administration, P. O. Box 3621, Portland, Oregon, 97208. The copy is for you to retain as your record.

Dear Mr. and Mrs. Benson,

Enclosed is a fully executed copy of a Limited Consent for the portion of your house that is within the Bonneville Power Administration's (BPA) right-of-way. I have also included the shed and fence on this document in order to keep things simple.

For your information, I have sent this document to be recorded and once I have received a copy back from the County, I will send you one for your records. My understanding is that the recording process can take up to a couple of months for completion so you shouldn't expect to receive anything back at least until the end of August.

If you have any questions about this document, or find that you have additional uses for the right-of-way in the future, please feel free to contact our Real Estate Office at (360) 563-0572 or toll-free at (888) 611-1746.

Sincerely,

Mari Rosales
